

What impact will you make?

Every day, your work will make an impact that matters, while you thrive in a dynamic culture of inclusion, collaboration, and high performance. As the undisputed leader in professional services, Deloitte is where you'll find unrivaled opportunities to succeed and realize your full potential.

Deloitte is where you'll find unrivaled opportunities to succeed and realize your full potential.

The Team

Audit and assurance is about much more than just the numbers. It's about attesting to accomplishments and challenges and helping to assure strong foundations for future aspirations. Deloitte illuminates what, how, and why of change so you're always ready to act ahead. [Learn more about Audit & Assurance Practice](#)

Audit Innovation Centre (AIC) has been formed within Audit and Assurance practice to help audit engagement teams handle and visualize big data. This team consists of Data Scientists, Programmers and Tech Savvy Auditors that are facilitating data driven audits.

Work you'll do

- Use programming languages such as Scala, Hadoop Framework, Python and Spark to build Data pipelines and models.
- Apply understanding of Data Structure, Algorithms and Data Science and Big data concepts.
- Processing, filtering, and presenting large quantities of data and ability to design for performance, scalability, and availability using spark-scala.
- Use Scripting or programming languages, ETL tools for data loading and transformations
- Develop, modify, and test algorithms that can be used in scripts to store, locate, cleanse, verify, validate, and retrieve specific documents, data, and information.
- Application of Machine learning and deep learning algorithms.
- Transforming large data sets into meaningful visuals using Power BI and Tableau for audit engagement teams
- Connecting scripting languages to BI tools.
- Work on Big data – Data Science domain for all the above tasks

Qualifications

- Bachelor\Master's degree in Computer Science or a related field.
- Experience as a Data Engineer/Data Scientist with experience in Data Analysis, Data Modeling, Data Validation, Data Cleansing, Data Verification, and presentation (Reports/Dashboards)
- Hands on knowledge/ work experience of some or all programming languages such as Python, Spark, Scala, Hadoop, SQL
- Hands on knowledge/ work experience of Power BI and/or Tableau

How you'll grow

At Deloitte, our professional development plan focuses on helping people at every level of their career to identify and use their strengths to do their best work every day. From entry-level employees to senior leaders, we believe there's always room to learn. We offer opportunities to help build world-class skills in addition to hands-on experience in the global, fast-changing business world. From on-the-job learning experiences to formal development programs at Deloitte University, our professionals have a variety of opportunities to continue to grow throughout their career.
